Subject: FW: Animas River Spill- NBC Network News

Guys, George asked me to flag this for you. Region 8 put out a statement earlier today. I've referred this NBC reporter, as well as KOAT –TV (Albuquerque, NM) to them.

Rich Mylott told me he had 60 calls to respond to. I don't know if he was being hyperbolic, but the matter has certainly kept him busy.

Subject: Animas River Spill- NBC Network News

Hello Mr. Gray my name is Gabriel with NBC Network News in Los Angeles. Would it be possible to get an update on the Animas River and how it is effecting your region and what the EPA feels may result from the million gallons of mine waste water that made its way into the Animas River in Colorado and is making its way south to New Mexico?

I understand that you are working on a release, would also be possible to get a copy of it? Thank you.
